

## International Autumn Conference

5–9 October 2022 at the Goetheanum

### On the Quest for Health ::: Vulnerability – Love – Balance

We would like to invite you to send us your unusual and usual

#### workshop offers

topic- and practice-oriented, more theoretical, artistic ... everything is welcome.

Thematically, we are thinking of any topics that involve the field of health in connection to our field of work:

- Therapeutic offers
- Nursing care
- Medical understanding and accompaniment
- In everyday life
- Artistic support and self-efficacy experiences
- Movement activities
- For the individual
- For the team
- For the social organism
- For society

Please complete the online form for workshop proposals: <https://forms.gle/6VqNwVLTLo038Sj8> by **25.02.2022**.

You can also use this form to suggest someone else for a workshop.

Then we will get an overview of what is on offer and contact you to see if we can include your workshop in the conference program.

We would be especially pleased to have workshop leaders who are working in **tandem** with a person with support needs or offers which are led by a person with support needs on their own. Since we would like to offer an inclusive conference again, please consider in advance how you can formulate the text announcing your workshop in simple language.

You can find the conference program on the website, where you can also find the format of the working groups: three times with the same participants. Thursday, Friday, and Saturday each 90min, either three times in the morning or three times in the afternoon.

We cannot offer an honorarium. However, you will receive a free ticket for the conference and, if desired, free tickets for all meals. Under special circumstances, we can also offer support for travel expenses.

**Thank you very much!**
